

Dear Spark Park,

The Spark park has been an amazing addition to our school. My favorite part of the Spark park is the atrium because it has so many colors and I really like the patterns. and I also like the trees because it really helps the community. also its true they are both really helping because the atrium helps people relax themselves, the trees help us breathe. It was also used for the relay race, and walking and you can also run.

I am very thankful for Spark park to create the Spark park because they helped get more room for the playground. I am also thankful for all the things Spark park has done to help my school. The Spark park community is very helpful to us thank you for everything you've done to help us.

Sincerely,  
Alexia Garcia,
